**Executive director**

## LETTER OF RECOMMENDATION

Company «**QUATTROSERVICES LTD**» is cooperating with SINTEC since 20.09.2015. During the execution of the works as the contractor SINTEC performed the following scope of works at the site **AstraZeneca LLC, Pharmaceutical Plant, Phase 2, Vorsino IP, Russia**:

- Structured cabling system
- CCTV system
- Fire Alarm system
- Fire Announcement system
- Access Control system
- Clock system
- 0,4kV cabling testing (test laboratory works)

Regardless of the task's level of complexity SINTEC's works were done on time and with required quality level. SINTEC's staff strictly complies with requirements of the customer, control the quality and technology of performance of works and takes part at all stages of works. Also much attention was paid to compliance with health and safety requirements and the object's rules.

SINTEC company's experience on the field of construction and close-knit team allows not only to solve difficult tasks of the project but to make correct actions in online mode and with minimum losses of time and resources.

The quality of the services provided by SINTEC meets the requirements of our company.

We can recommend SINTEC as a reliable partner for a wide range of the construction works.

Regards,

  
**Jarmo Salminen**  
**Project Manager**
