

**TO WHOM IT MAY CONCERN**

Egorievsk, May 29, 2005

**LETTER OF REFERENCE**

Dear sirs,

our company, KRONOSPAN RUSSIA LTD., a member of the international operating KRONOSPAN GROUP has been co-operating with SINTEC LTD. on a number of projects.

The cooperation started in March 2003 with a frame contract under which was realised an amount of works and supplies at a value of several Million Euro. Sintec has done for Kronospan project works, tender documentations and realisation of projects like

- grounding and lighting protection
- transformer station 220.000 V
- electrical supply networks 220.000 V, 10.000 V, 6.900 V, 400 V
- MDP, MCC and LDP distribution systems
- PLC cabinets
- building infrastructure (light, sockets, satellite systems, surveillance cameras, fire alarm systems, burglar alarm systems, trace heating)
- machinery installation for two MDF production lines and a resin plant

Further on SINTEC had a key role in obtaining permissions for the building and operation of the electrical power supply systems, especially the 220.000 V / 2x63 MVA transformer station.

The experience of our co-operation with SINTEC LTD. shows that the company is a reliable partner strictly keeping the commitments undertaken. SINTEC LTD. is adhered to internationally adopted quality standards of activity, using know-how, equipment and technology according newest West-European standards.

The personnel of SINTEC LTD. has deep knowledge of industrial systems and an extensive experience in the field of electrical installation. The SINTEC specialists are aimed at an active co-operation both with the clients and the contractors and open-minded for discussion and innovation.
