REFERENCE LETTER

Dear All,

In 2013 SINTEC was awarded the "Turn-Key" Contract for Reconstruction of HV substation №426 110/10/10kV as a General Contractor at the Procter & Gamble production site, located in Novomoskovsk, Tula region.

SINTEC started works on site in May 2013 and put the object in commission in July 2014. In the framework of their Contract SINTEC has performed the following works for P&G: working design;

- author's supervision;
- coordination with Regional Dispatching Office, Rostekhnadzor and Energy supplying organization;
- procurement equipment;
- civil works for the HV outdoor switchgear;
- civil works for the substation control point and MV indoor switchgear;
- installation of the HV/MV equipment;
- installation of the HV relay protection and emergency automation;
- installation of the automation control system;
- installation of the automated information measuring system of commercial electric power accounting;
- installation of the high-frequency connection equipment and dispatching and technological management equipment;
- installation of the grounding and lightning system;
- commissioning and start up.

All the works, listed above, were performed professionally in accordance with the contractual terms and completion dates.

Management of P&G and me, participating in reconstruction of this object, can characterize that company is a highly professional and responsible Partner, strictly keeping the commitments undertaken and supporting international quality standards. The Sintec personnel has deep knowledge of industrial systems and an extensive experience in the field of electrical installation.

We hope for further cooperation.

We can also recommend Sintec to any Customer as a reliable Contractor for the execution of similar scope of works.

Best regards,

Deputy Technical System Manager

Vladimir Fedonin
