**Subject: Recommendation**

Dear All,

In 2015 SINTEC LLC ( Russia) Performed Power supply and Instrumentation work for the Reconstruction of the Coal Tar Distillation Unit of Ruetgers Severtar, Ulitsa Mira 30 162608 Cherepovets Russian Federation

The following works were executed:

- Power supply (Installation of cabinets and cable works for Transformer and MCC Stations)
- Lightning Indoor
- Lightning Outdoor
- Earthing and Lighting protection
- Automatic fire alarm system
- Installation of Instrumentation
- SS Communication

All the above works were performed professionally in accordance with the contractual terms and completion dates. The quality of the performed works is very high and according Russian and European standards. Furthermore SINTEC provided of all required installation material in short terms

The experience of our co-operations with SINTEC shows that the company is a reliable partner strictly keeping their commitments. SINTEC LLC is adhered to internationally adopted quality standards, using high tech equipment and technologies according the newest European standards.

We can recommend SINTEC to any costumer as reliable contractor for the similar scope of works.

King regards,

**LIMITED LIABILITY COMPANY RÜTGERS SEVERTAR**
