## REFERENCE LETTER

In 2018-2019 SINTEC LLC (Russia) was one of the contractors for electrical erection at the new Rolling Mill plant and Wire Rod line at TCMS, Tula (Russia).

In their scope of supply was:

- Installation of electrical cabinets and field boxes
- Installation of cable way system
- Installation of instruments, motors, sensors ...
- Cable pulling and termination
- Grounding of all equipment
- As-built documentation
- Support of I/O test

Due to their international experience in industrial projects, we reached in a short time a common understanding about scope of work and high quality and safety standards as usual in Europe. With high responsibility of all team members and as a reliable partner we worked with SINTEC under sometimes difficult conditions very successful together.

We want to thank also for the big support to organize the delivery of necessary materials and spare parts in original quality in short time.

Thank you for your cooperation and best wishes for future. Hope to see you again.

We can recommend SINTEC to any Customer as reliable Contractor for the execution of similar scope of works.

Best regards,

*Claudio Armano*

*Senior Expert, Field Techn. & Product Devel.  
Bar & Wire Rod Mills*
