To SINTEC LLC

Subject : SINTEC Reference Letter

In 2018-2019, ALSTEF SAS designed and installed the Baggage Handling System of the Sheremetyevo Terminal C1. For this project, we have decided to sub-contract the electrical scope of works to a Russian company: **SINTEC LLC**.

SINTEC LLC have performed the following works under our supervision:

- Detailed studies of all electrical panels: 13 Main Control Panels, 46 Secondary panels (Control, Safety) and hundreds of HMI and control boxes
- Detailed studies of field cabling (few kilometers): Power, control (ASi, Profibus, ...) and communication (Ethernet, Optical fiber) networks
- Manufacturing of all panels
- Site installation of panels and field cabling (One year of intensive works)
- As built documentation per Russian standards

The mentioned works were performed in accordance with schedule, our standards of project management and quality.

I can recommend **SINTEC LLC** to any customer as a reliable Contractor for the execution of similar electrical works.

Gleb ZUEV
Project Manager
